

DELHI PUBLIC SCHOOL · VADODARA PRESENTS

TECH TREK 3.0

INNOVATE · INSPIRE · IGNITE

22 AUGUST 2026 // SATURDAY

REPORTING TIME 08:00 A.M.

The official brochure for the third edition of DPS Vadodara's flagship Inter-School IT Fest — three tracks, one grid, endless possibilities.

INVITATION

Greetings from Delhi Public School Vadodara!

We are delighted to announce **Tech Trek 3.0**, the third edition of our flagship Inter-School IT Fest, to be held on **Saturday, 22 August 2026**.

This much-awaited event promises to be an inspiring celebration of technology, innovation, and creativity, bringing together some of the brightest young minds from across schools. Tech Trek 3.0 provides an exciting platform where imagination meets technology, empowering students to transform their ideas into innovative solutions.

In today's rapidly evolving digital landscape, we invite your talented students to showcase their creativity, technical expertise, and innovative spirit through three exciting competitions. From designing visually compelling thumbnails and engineering robots to race against challenging tracks, to demonstrating knowledge and quick thinking in an engaging IT Quiz — every event has been thoughtfully curated to inspire creativity, collaboration, critical thinking, and excellence.

We are confident that your school's enthusiastic participation will make Tech Trek 3.0 a truly memorable celebration of talent, innovation, and the spirit of healthy competition. We look forward to welcoming your students and receiving your esteemed participation.

Warm Regards,
Team — Tech Trek 3.0
Delhi Public School Vadodara

GENERAL GUIDELINES

- **Date of event:** 22 August 2026 (Saturday)
- **Reporting time:** 08:00 A.M.

- Each team will be allowed to participate in **any one event only**.
- Maximum **2 teams** from each school can participate in all 3 events.
- Participants must abide by the **eligibility criteria** set for each event.
- The decision of the **judges will be final**.

THE THREE EVENTS

One trek, three paths. Every team picks a single track to compete in — Neuro Byte for knowledge, Pixel Forge for design, or Robo Race for engineering.

TRACK 01 // KNOWLEDGE

Neuro Byte

Test your technology knowledge in a fast-paced quiz challenge covering gadgets, computers, AI, cybersecurity, programming, innovations, and the digital world. Think quickly, answer confidently, and compete to prove your tech expertise!

DATE	22 August 2026 (Saturday)
REPORTING TIME	08:00 A.M.
PARTICIPATION	One event per team
RESOURCES PROVIDED	Pen and question paper

TRACK 02 // DESIGN

Pixel Forge

A live, on-the-spot tech thumbnail design challenge. Teams are given a short video on the day of the event and must design a compelling 16:9 thumbnail for it within the time limit — testing visual storytelling, composition, and speed under pressure.

Software: Adobe Photoshop (Ps) for image compositing and thumbnail layout, Adobe Premiere Pro (Pr) for pulling and trimming frames from the source video, and Adobe After Effects (Ae) for motion or layered visual effects. Any other offline design tool is also permitted, with resources downloaded in advance — no internet access during the round.

ASPECT RATIO	16:9
DURATION	1 hour
SOFTWARE	Any offline tool provided, with resources downloaded
TEAM SIZE	Maximum 2 members per team

TRACK 03 // ENGINEERING

Robo Race

Witness autonomous or remote-controlled robots compete in an exciting race of speed, precision, and engineering. Navigate obstacles, cross the track, and be the first to reach the finish line. Think smart, build better, and race to victory!

Obstacle sequence: Start → Oil Spill → Curvy Path → Small Rocks → Bridge → Narrow Passage → Sharp Turns → Finish

TRACK	Obstacle race, multiple challenges
DURATION	30 to 45 minutes
MODE	Individual or Paired
ROBOT	Autonomous / Remote Controlled
RESOURCES	School will provide all required instruments
RULE	Follow the track, complete all obstacles, finish first

Car Specifications

DIMENSIONS	Max 30 × 30 × 30 cm
WEIGHT LIMIT	Max 5 KG
POWER LIMIT	≤16V DC (LiPo / Li-ion only)
CONFIGURATION	4-wheel robot, any wheel type, DC drive motors only, optional servo steering, no flying
TERRAIN	Capable of traversing stones, slopes, hurdles and oil
CONTROL	Wired, RF or Bluetooth only (no WiFi)
CONSTRUCTION	No premade kits or toys
MANUAL INTERVENTION	Up to 2 adjustments per run to clear hindrances (costs points)
OTHERS	No sharp edges or hazardous materials; secure wiring and strong build required

Rules

- **Maximum:** 2 members per team.
- **Repairs:** Once a robot has passed inspection, no repairs or part replacements are permitted between heats.
- **Sportsmanship:** Any attempt to tamper with another team's robot will result in disqualification.
- **Signal interference:** Deliberate interference with another team's RF or Bluetooth control is strictly prohibited.
- **Manual intervention:** Teams may manually assist their robot up to two times during a run — each intervention carries a 15-point penalty.
- **Time limit:** To be announced on the day of the event.

Track & Scoring

TRACK	7–8 checkpoints, crossed in order
CHECKPOINT	+10 points

COURSE FINISH	+20 points
MANUAL TOUCH	−15 points each
RUN ENDS WHEN	Course completed, robot cannot continue, or more than 2 manual touches
RANKING	Highest score, fastest time as tie-breaker

Disqualification

- Signal interference
- Tampering with another robot
- Failed inspection / start-box check

PREVIOUS YEAR'S MOMENTS

Tech Trek 2.0 // 2025 — "Where Passion Builds Innovation." One robot, one run, endless possibilities. The full photo gallery from Tech Trek 2.0, along with Tech Trek 3.0 photos as they come in, is available on the website's Gallery page.

REGISTRATION DETAILS

Kindly fill in the registration form by scanning the QR / visiting the link shared with your school, or through the website's registration button.
